

CANCER DUE TO SMOKING CIGARETTES

Premier of France's Disease Caused by Excessive Use of the Weed.

Special Dispatch to The Call.

PARIS, April 12.—The Call correspondent learns from a trustworthy source the statement that Premier Waldeck-Rousseau is suffering from cancerous growth under the tongue is true, official denials to the contrary notwithstanding. His trouble is probably due to excessive cigarette smoking. The disease, it is said, is not of malignant type.
