

H 5447.49.14.15

Rec'd through the Business School,
MR. EDISON'S LETTER

KJ1757

Sub. Address "Edison, New York"

From the Laboratory
of
Thomas A. Edison.

Orange, N.J. April 26 1914

Friend Ford

The injurious agent in Cigarettes comes principally from the burning paper wrapper. The substance thereby formed is called "Acrolem".

It has a violent action on the nerve centers producing degeneration of the cells of the brain, which is quite rapid among boys.

Unlike most narcotics this degeneration is permanent and uncontrollable.

I employ no person who smokes Cigarettes.

Yours

Thomas A. Edison
