Dr. Ernest F. Fullam  
P. O. Box 4444  
Schenectady, New York

Dear Dr. Fullam:

Under separate cover we are sending you six more lots of Kent cigarettes, numbered from 13 to 18 inclusive. Again each lot represents a different treatment for the purpose of eliminating the occurrence of mineral fibers in the smoke. We will appreciate it very much if you will subject these cigarettes to your regular test procedure and let us know the results as soon as such information becomes available.

With kindest regards, we wish to remain,

Very truly yours,

P. LORILLARD COMPANY
